

IN THE CLAIMS

This listing of claims replaces all prior versions, and listings, of claims in the application:

1. (Currently Amended) A method for feeding an animal, comprising: feeding to ~~the~~ an animal a fat-containing diet having an amount of a liposome-encapsulated avian immunoglobulin against lipase effective to decrease ~~inhibit~~ body-weight gained due to consumption of said diet relative to a control animal.
2. (Previously Presented) The method of claim 1 wherein the immunoglobulin is an avian antibody.
3. (Previously Amended) The method of claim 2 wherein the avian antibody is part of a diet containing wet liposomes or freeze-dried liposomes.
4. (Original) The method of claim 1 wherein the animal is mammal.
5. (Original) The method of claim 1 wherein the animal is an avian.
6. (Currently Amended) A mammalian food composition, comprising: fat and an amount of a liposome-encapsulated avian immunoglobulin against lipase effective to decrease ~~inhibit~~ body-weight gained due to consumption of said food composition relative to a control animal diet.
- 7.- 8. (Cancelled)
9. (Previously Amended) The food of claim 6 which contains 25-1000 mg/kg of the liposome-encapsulated immunoglobulin against lipase.
10. (Currently Amended) An avian food composition comprising: fat and an amount of a liposome-encapsulated avian immunoglobulin against lipase effective to decrease ~~inhibit~~ body-weight gained due to consumption of said food composition relative to a control animal diet.
11. (Previously Presented) The food of claim 10 which contains 25-1000 mg/kg of a liposome-encapsulated immunoglobulin against lipase.
